The quartz through which the shaft is going down is getting more highly impregnated with mineral all the time and it is expected that signs of the quartzite footwall to the famous Silver King contact will be in evidence before long.

DR. A. J. SHORES.

Dr. A. J. Shores is a regular Graduate of the Medical Department of the University of Louisville, Ky.—founded in 1837—one of the oldest and best Medical Colleges in the United States. For many years he engaged in private Practice—until he saw he could do somethings better than most other Doctors—then he began to study SPECIALISM— devoting his entire time and talents to the Study of Catarrh, Chronic Nervous and Private Diseases. He developed new theories regarding the treatment and cure of such diseases. He has made a success of this class of allments—and in Colorado, California and Utah, thousands of cured patients testify to his skill and ability. Dr. A. J. DR. G. W. SHORES.

Dr. G. W. Shores is a regular graduate of The Louisville Medical College, recognized as one of the most Popular Medical Colleges in the United States. Dr. G. W. Shores engaged in Private practice for many years—then, like his brother, Dr. A. J. Shores, gave up his general practice, believing it better to be the MASTER OF A FEW THINGS than "fairly good" in many. Dr. G. W. Shores took up the Study of Catarrh, Nervous Chronic and Private Diseases some sixteen years agoand has devoted his life to perfecting a CURE for this class of ailments. How well he has succeeded all Utah knows. Together these Doctors have treated over 100,000 cases of Catarrh, Nervous Chronic and Private diseases-giving them an experience seldom equaled by Medical Men.

Beware of "Fake Medical Companies." Drs. Shores, in their many years of practice in Salt Lake City, have never resorted to abuse of any

honest physician, but on the contrary Drs. Shores have always welcomed HONEST competition, but when TRAMP DOCTORS and ITINERANT FAKERS hiding under the cloak of a "Fake Medical Co.," seek to trap the unwary, Drs. Shores feel it a duty to call attention to such frauds. EVERY DOCTOR EN-TITLED TO PRACTICE MEDICINE IN UTAH HAS HIS NAME AND CREDENTIALS ON RECORD IN THE COUNTY RECORDER'S OFFICE, If you in tend to consult a doctor, FIRST EXAMINE THE RECORDS AND SEE THAT HIS NAME IS THERE. It is an old-time trick to advertise a "Fake Medical Co.," and parade one doctor as possessing great skill (who is either a non-resident of thhe state or is dead and buried), and then palm off some unscrupulous quack on the sick when they come to consult the doctor advertised.
